❖ Work Experience

Frontend Developer

Metta Social Solutions Pvt. Ltd

Period: 11/2022 – Present

Place: Pune

Web App Development : Developed and maintained robust web applications using React, Next.js, and TypeScript.

Optimization: Improved app performance using React hooks like `useMemo` and `useCallback` to minimize re-renders, along with code splitting and dynamic imports. Applied image compression and responsive image techniques.

Integration : Integrated APIs with React Query, reducing response times by 40% while simplifying data fetching, caching, and synchronization, ensuring the app remains responsive and up-to-date.

Real-Time Communication : Developed a socket client from scratch in React Native and web apps, enabling real-time communication and seamless data exchange.

Mobile App Development : Developed a chat feature in an Android app using React Native, enabling real-time messaging and seamless communication, which was successfully integrated into an app published on the Google Play Store.

URL Abbreviation & SEO : Created a URL abbreviation feature to enhance link-sharing functionality, and optimized SEO through meta tags, structured data, and keyword research, leading to improved search engine rankings and visibility.

Responsiveness : Designed responsive, mobile-first UIs using React-Bootstrap, delivering seamless experiences across various devices and screen sizes, contributing to increased user engagement.

Code Quality : Improved code quality with SonarQube, incorporating GDPR compliance rules to reduce technical debt and ensure regulatory adherence.

Data Visualization : Developed custom data visualizations from scratch using D3.js, enabling dynamic and interactive charts to enhance user insights.

Frontend Developer

Sky touch Engineering

Period: 06/2023– 11/2022

Place: Pune
